MUNICIPAL REGULATIONS

For Payment of Bills Against the City

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government. The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,

City Clerk.

REPORT OF THE BOARD OF WATER COMMISSIONERS

To the Honorable Mayor and Board of Aldermen:

The Board of Water Commissioners early in the spring of 1935, with the help of Superintendent Sanders and with the survey and plans made by Metcalf & Eddy, decided to provide and install an extra high service for the area at the West End, so-called, between Auburn, Liberty, School and Center Streets to Kensington Road, Grand View Avenue, Minot Street, Kent Street, Ridge Road and Westbourne Road. For some time the Board had felt that this section of the City needed better fire protection.

The Board also concluded that if the central part of the City was better protected with the extra high service, Penacook also should be provided with an extra high service for better fire protection.

The Boston engineers, Metcalf & Eddy, and our Superintendent, presented a plan that was adopted unanimously by the Board. The plan as adopted provided for the erection of a 250,000 gallon stand-pipe on the height of land on the extension of Auburn Street, known as the Long Pond road, the building of a brick automatic pumping station on Columbus Avenue and the erection of a 250,000 gallon water tower on South Main Street in Penacook.

To complete the two extra high services it means the laying of a large amount, about 6000 feet, of 12 inch cement lined cast iron pipe. Estimated cost of the work planned was $91,500 and the City was able to receive from Federal sources and through the PWA 45% of the cost, the City to furnish the balance. In this connection, the City sold their bonds bearing 2½% interest

at a small premium. The principal and interest on the bonds will be paid out of the income received from the water takers as they become due year by year.

The Concord Water System is self-supporting and has been able to make the substantial improvements to the system during the last few years without increase in water rates.

Part of the work as planned, our Superintendent was able to do last fall. The rest of the work will be completed by another August. Those unemployed and on relief are given jobs on the work as far as possible, which is of some help to the City at this time when so many are on relief. With the present work completed of the extra high service, the Board feel that the City has as complete, efficient and healthful water supply as any City in New England.

The financial statement for the year shows all accounts paid and a balance carried forward January 1, 1936 of $39,290.27.

Respectfully submitted,

For the Board of Water Commissioners
duly authorized,

HARRY H. DUDLEY,

President.

EXTENSION AND IMPROVEMENTS

Distribution pipe laid:

8-inch:

Shawmut Street, East Concord, 2,477 feet, extended east. Depot Street, City, 258 feet replacing 4-inch discontinued.

6-inch:

Pleasant View Avenue, 520 feet, from Pleasant Street, north. Bridge Street, extended east 146 feet, replacing 2-inch pipe.

2-inch:

Iron Works Road, 110 feet, extended west.

1-inch:

Endquest Street, 273 feet, from Prescott Street.

On hydrant branches, 111 feet of 6-inch; 6 feet of 4-inch discontinued.

Twelve new gates were set, two 8-inch and ten 6-inch; two 4-inch gates discontinued.

Eight new hydrants have been set:

Shawmut Street, East Concord, north west corner of Cemetery Street.
Shawmut Street, East Concord, north side, at Chamberlin's.
Shawmut Street, East Concord, north side, at Davis'.
Shawmut Street, East Concord, south side, at Moody's.
School Street, north side, opposite Dr. Jameson's.
School Street, west side, at Thorndike Street.
Wyman Street, north side, at Wyman Avenue.
Pleasant View Avenue, west side, 500 feet north from Pleasant Street.

Two hydrants have been replaced by new ones.

Fifty-one new services have been laid consisting of 1,007 feet of ¾-inch, 126 feet of 1-inch, and 231 feet of 2-inch pipe; of these 6 were relocations of old services. We have also added four 6-inch sprinkler services, two for Merrimack Farmers Exchange, Inc., and one each for Concord Electric Company and A. P. Fitch Company.

Eight services have been discontinued; total length of service pipe laid 1,364 feet; total length discontinued 112 feet; net increase of 47 services and 1,252 feet of pipe.

Fifty-four services were relaid and curb valves were placed on 12 old services.

Sixty-two new meters were set and 4 have been discontinued.

It has not been necessary to operate the Sanders pumping station except for testing the pumps on account of the continued high water level in Penacook Lake, the mean height of which was 183.556, .28 foot higher than 1934.

The schedule of pipe laid, hydrants set, services laid and meters set gives in detail the work of the year.

In 1927, studies were made and a report was submitted by Metcalf and Eddy to the Board of Water Commissioners on improvements to the water system of the city. They recommended as a result of their investigations that an auxiliary source of water supply be built to provide at least 1,500,000 gallons of water daily; plans were submitted for the extension of the mains to Concord Heights and East Concord and for additional high service for Auburn Street from School Street north, and the adjacent district west of Auburn Street to Grand View Avenue and north of Pleasant Street.

A further recommendation was made in 1933 by the

National Board of Fire Underwriters that a 250,000 gallon elevated water tower be erected in Penacook to provide larger fire flows.

The auxiliary supply has been built and service has been extended to Concord Heights and East Concord. With the completion of this part of the program, it was decided this year to provide for an extra high service area and build the water tower in Penacook, work to be commenced as soon as possible.

The plans call for an automatic pumping station to be built on Columbus Avenue about 350 feet north from Auburn Street, laying 6,065 feet of 12-inch cement lined cast iron pipe, the erection of a 250,000 gallon standpipe and a 250,000 gallon water tower in Penacook.

The pumping station is one story in height 20′x 24′ and built of brick. The equipment will consist of two electrically driven centrifugal pumps, each with a capacity of 300 gallons per minute and to be automatic in operation.

The standpipe will be 38 feet in diameter, 30 feet high and the water level will be 84 feet higher than the level in the reservoir. Work was started on pipe laying October 28 and continued until December 31 when operations were suspended for the winter.

The 250,000 gallon elevated water tower in Penacook will be located approximately 300 feet west of South Main Street, adjacent to and south of the Catholic Cemetery.

The estimated cost of the total project is $91,500.

Application for a PWA grant was made by the City for 45% of $91,500, amounting to $41,175.00 and this amount was allotted for the project. All work has been done, materials bought and contracts awarded according to the Rules and Regulations of the P. W. A.

The pipe laying is being done by force account. The

contract for the tank and tower was let to the Chicago Bridge and Iron Works, for $23,900; for the pumping station, tank and tower foundations, to L. H. Shattuck, Inc., for $10,702. The pumping station equipment was let to F. A. Mazzur Company, for $1,594.00.

Following is financial statement to December 31, 1935:

FIRE DEPARTMENT

To the Board of Mayor and Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1935.

The Department responded to 555 alarms.

Bells	*Stills*	*Alarms*
65	490	555

The number of alarms exceeded those of the previous year by seventy, and the loss was greater, due principally to fires in business blocks and church buildings.

The apparatus, in the main, is in good condition.

Engine No. 1, the oldest pumper in the service, was overhauled and modernized, and will give good service for a number of years.

Two trucks should be rebuilt and equipped with pumps.

All repairs and maintenance is done in the Department shop.

I urgently recommend an Aerial truck be purchased, as our ladder equipment is inadequate.

The Fire Alarm System is in good condition. One mile of aerial cable was installed in the Penacook district during this year, and I recommend an additional amount be installed this coming year, which will eliminate all open wiring in this district.

Four public, and two private boxes were added to the system this year.

All hose was tested, and but a small amount was rejected and turned over to other departments. One thousand feet of new hose should be purchased this coming year for replacement.

Fire prevention has been carried on by the permanent force. There was four thousand six hundred twenty-five inspections made. Results of this work have proved highly satisfactory.

I wish to thank the citizens for co-operating with the fire inspectors.

For the support and co-operation of your board, and the heads of departments, I wish to express my appreciation.

Respectfully submitted,

W. T. HAPPNY,

Chief of Department.

REPORT OF THE ENGINEERING DEPARTMENT

Concord, N. H., December 31, 1935.

To the Board of Public Works:

Gentlemen:

The following is the yearly report of the various subdivisions of this Department:

Engineering

Appropriation,	$5,275.00	
Reimbursements,	293.75	
		$5,568.75
Expended,		5,566.30
Balance,		$2.45

An itemized account of all work done and expenditures is kept on a card system, which we shall be pleased to show and explain to all interested parties.

Sixty-six plans and 2,966 prints were made; 12,500 feet of grade stakes were set; 492 transfers of property were recorded; 0.135 miles of streets were laid as follows: Greenwich Street 103.54 feet; Davis Street, 513.50 feet; Endquest Street 273.54 feet; Pleasant View Avenue 473.45 feet, bringing the total mileage of roads and streets in the corporate limits to 183.342 miles.

The deed book of Blossom Hill Cemetery showing transfers of lots was brought up to January 1, 1936.

This has been one of the busiest working years since I have been employed and credit should be given to Edward E. Beane, engineer, who on August 1, 1935, was made Deputy Engineering Commissioner, C. Fred Moulton, draftsman and transitman, S. Frances Richardson, chief clerk, and Frank S. Merrill, accountant, all of whom have rendered valuable service to the city.

Sewers

Appropriation,	$10,000.00	
Reimbursements,	1,599.52	
		$11,599.52
Expended,		11,598.05

Our regular employees of this Department have been, William H. Murphy, foreman; Richard Morrill, James J. Berryman, and Wilbur A. Kendall, assistants, all of whom have rendered valuable assistance.

Plumbing Inspections

There were 145 plumbing permits issued and 270 inspections were made.

Street Lights

During the year there were installed street lights as follows: 15-60 c.p.; 1-40c.p.; making the total electric street lights as follows: 143-600 c.p.; 215-200 c.p.; 1-100 c.p.; 607-60 c.p., and 553-40 c.p.

Appropriation,	$42,000.00
Expended,	41,658.53
Balance,	$341.47

Trees

Appropriation,	$6,000.00
Earnings,	8.21
	$6.008.21
Expended,	6,007.49
Balance,	$0.72

Tree work is very hazardous but we feel that the city as a whole is well taken care of by our foreman J. Henry Jordan and his assistants.

The condition of trees in Concord according to the report of Mr. Edward Tilc, who was employed to make a tree survey, is not very favorable as he claims that nearly all of our trees are sick and need such care as will run into a great deal of money. The tree department feels that he has overstated his survey.

Garbage Other Than Table Garbage

Appropriation,	$35,000.00
Expended,	35,638.09
Overdraft,	$638.09

This overdraft is caused by additional collections in Penacook and exceptionally large amounts of rubbish.

Our method of collection seems to be satisfactory. The territory covered is from Bow line to Boscawen line, E. Concord, Plains, St. Paul's School and the city proper.

Table Garbage

Appropriation,	$4,610.00
Expended,	4,610.00

Table garbage is collected by contract with Bert Holt having the contract to collect in the city proper at a yearly price of $4,000.00. This contract expires December 31, 1937.

Fred Loranger has the contract for collecting in West Concord until June 6, 1936 at a price of $250.00 per year. He also has the contract to collect in Penacook until August 1, 1936 at a price of $360.00 per year. No appropriation was made for collection in West Concord and the cost was borne by the Roads and Bridges appropriation.

Bridges and Culverts

The bridge at Hardy Brook, Elm Street, Penacook, was removed and a 48″ cement concrete culvert with broken range head walls was built.

Fifteen culverts were rebuilt and one new one installed.

Fences

Guard rails were repaired and new ones installed as time would permit. There are several hundred feet yet to be built to conform with existing laws. A cable fence was built along the Contoocook River from the Bog Road east and at the end of the Federal Bridge on east side of road at East Concord.

Snow Plowing and Snow Removal

In January 38 inches of snow fell which required 14 plowings. We hired 21 plows in addition to our five, and 68 extra men. Sidewalks were plowed 17 times.

In February 12 inches of snow fell which required five plowings. We hired 19 plows in addition to our five, and 28 extra men.

Sidewalks were plowed seven times.

In March five inches of snow fell and was cared for by our own forces. Sidewalks were plowed twice.

On January 12 trucks were hired to help remove snow.

On February 7 trucks were hired to help remove snow.

We had eight hard drifting storms that required extra men and plowing was very difficult. We were handicapped as our first drifting storm came on January 1 and our heavy plows did not arrive here until January 2, when they were immediately put to work on the outside roads. Every effort was made to hire outside plows, but without success.

Buildings

During the summer the long wood shed has been repaired, cement floor laid, and when partitions are installed we shall have ten separate fire-resisting stalls for trucks.

All of the other buildings are in good repair with the exception of the blacksmith shop.

A machine shop should be built in the rear of the north end of the present garage. When this is done we shall have five more stalls for trucks.

Cleaning Streets

The motor driven flusher and four patrol men worked on North and South State Streets, North and South Main Streets, Park, Capitol, Green, School, Warren, Pleasant, Center, Prince and South Streets.

All streets are given a spring and fall cleaning which is very expensive as abuttors put out large amounts of rubbish and a great deal of which should be put out on the regular collection day.

Equipment Furnished

One air compressor.
One power grader.
Crusher screen.
Small tools and appliances.

Equipment Disposed of

Three Mead-Morrison tractors were worn out. These were sold, the money for which was applied to building a carpenter shop.

Equipment Built

One truck side plow.
Two 2-horse dump carts.
One paper wagon.
Repaired all plows.

Road Data

46.023 miles of gravel road were put in order.
43.033 miles of road were reshaped and tarred.
2.779 miles of sidewalk were built.

Extra Labor

Extra men were obtained from the Commissioner of Labor of the State of New Hampshire.

State Aid Roads

The State of New Hampshire Highway Department built and tarred on Clinton Street from the end of 1934 work to South Fruit Street, and on the Air Port Road from the end of 1934 work to Lawrence St.

To make a complete report of the activities of the Engineering Department would make too large a volume to print in this report.

We have on file in our office progress maps which show the road work of each year.

Our records are kept on a card system which show all receipts and expenditures. We should be pleased to show them to anyone interested.

Work has been done for your board, board of Aldermen, committees, departments when requested. All requests from citizens were granted when it was possible to do so. We are pleased to report that a very few outstanding active petitions are in our hands.

Various activities are handled through our department, namely: Streets and Roads, Sewers, Bridges, Culverts, Building and Plumbing inspections, Administration of Zoning Ordinance, Plumber examinations, copying of the deeds and recording for the assessors, location of hydrants, attendance at all hearings and meetings of the board, and various other activities.

For the many courtesies extended me by His Honor Mayor John W. Storrs, heads and employees of the various departments, your board, and the citizens, and for the loyalty of all employees, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,
Commissioner of Public Works.

REPORT OF THE CITY LIBRARIAN FOR 1935

To the Board of Trustees of the Concord Public Library:

Our expenses for the year 1935 were:

Salaries,	$6,612.59
Books and periodicals,	3,758.85
Fuel and light,	1,187.76
Binding,	445.61
Printing,	172.82
Incidentals,	659.70
Repair to buildings,	1,122.81
Architects' fees,	1,909.50
	$15,869.64

Our income was:

City appropriation,	$7,500.00
Interest on funds,	4,178.12
Fines,	586.97
Rent from Battery Station,	840.00
Insurance from White Building	3,529.00
	$16,634.09

We are solvent $764.45.

Our total circulation for the year was 148,405, an increase of nearly 12,000. These are the figures from each division:

Desk,	136,728
Penacook Branch,	8,719
West Concord Branch,	978
East Concord Branch,	468
Schools,	1,512
	148,405

We have 1,330 new borrowers. 7,248 people have come to the Reference Room for help this year, an increase of 824 over last year. We have bought 2,163 books, a large amount of which are replacements and additions to the 7th and 8th grade and the High School reading lists. We have discarded 915 volumes.

Mrs. Clement has done very fine work at the Boys' and Girls' House, greatly increasing the circulation, giving out in one day 190 books. I should like to say here how grateful we are to the city firemen for checking the fire there so quickly and keeping the water from damaging the books.

Through the kindness of the Shakespeare Club their room has been made available for women to read in and study.

This report is respectfully submitted by,

WALT CONSTANTINE,

Librarian.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To His Honor the Mayor and the Board of Aldermen:

The usual careful inspection of scales, weights and measures was made by your sealer during the year 1935 with the following results: 943 scales were tested, 645 of which were found correct and were sealed, 259 were adjusted before being sealed, 8 confiscated, and 21 condemned for repairs, later reinspected and sealed; 1,237 weights were tested with 1,225 correct, 1 adjusted, 6 confiscated, and 1 condemned for repairs; of the 4,488 liquid measures tested there were 4,456 correct, 17 adjusted, 8 confiscated, and 7 condemned for repairs; 455 automatic pumps were tested, 278 being correct and were sealed, 133 adjusted before being sealed, 1 confiscated, and 43 condemned for repairs, later reinspected and sealed; 3,059 oil measures were tested, all of which were correct with the exception of 4 which were adjusted before being sealed, and 1 condemned for repairs.

It was necessary to remind some of the merchants of the law which requires that the net contents be expressed on packages. There were 5,015 reweighings made of commodities in package form, the majority of which were found correct, i. e., 4,957 correct, 2 over and 56 under weight. The same was true in connection with the 11 loads of coal which were reweighed while in the process of delivery, 8 being correct, 2 over and 1 under weight according to the accompanying certificates.

It was also necessary to caution certain merchants in regard to keeping their baskets of berries properly filled.

There were tests made of 28 tanks on trucks used for the delivery of gasoline, 14 of which were found correct and 14 adjusted before being sealed. Ten meters on such tanks were tested with the following results: 6 correct and sealed, 3 adjusted before being sealed, and 1 condemned for repairs.

A close supervision of the delivery of wood was made during 1935 and 52 cart bodies were measured, only 7 of which were found incorrect. Three piles of loose wood were measured, one cloth measuring machine was found correct as well as four yardsticks. One set of steelyards was tested and sealed.

Respectfully submitted,

GEORGE A. DEARBORN,

Sealer of Weights and Measures

HEALTH DEPARTMENT

Report of the Sanitary Officer

To the Honorable Mayor, the Board of Health and the Board of Aldermen:

I have the honor to submit the following report on the health of Concord during 1935.

During the past year the health of the city was in general good. Altogether there were reported 625 deaths of which however only 358 were true residents the remaining 267 being institutional residents coming here from elsewhere. The resident death rate was 14.9 and the crude death rate, including all institutional deaths, was 23.6 per 1,000 population. Deaths of infants, preschool children and persons under 20 years of age were low and represented a decrease from the numbers at those ages during the previous year. Deaths from the degenerative diseases of middle and old age were somewhat higher.

A census of the city made at midyear indicated that our population has continued to increase in spite of the economic difficulties of the last five years. This census was mostly made by the Federal Housing Project in their property survey of the city but was completed by us by an enumeration of persons living on public and institutional property. The combined figures showed a population of 26,459 of whom 24,018 were true residents. This is an increase of 837, or 3.6 per cent, over the number found in the United States Census of 1930.

Among the communicable diseases the year was characterized by the appearance of mumps and German measles, both diseases being prevalent over all New England. All the Concord cases were mild and had a nuisance value only. One death from typhoid fever was reported but upon autopsy was stated to have been due to a long standing infection with amoebic dysentery. Two other old cases of this disease came to our atten-

tion during the year, one of them a non-resident coming here for treatment from out of the state. Infantile paralysis was not unusually prevalent in spite of outbreaks in other cities of this region. Diphtheria appeared in April in the Kimball School and in October in the French School. Quarantine measures, culture examination of contacts and daily school inspections prevented spread of the disease. Every case was in a child who had not taken advantage of the free toxoid and toxin-antitoxin treatment urged upon parents less than a year before. Toxoid was again offered the public in 1935. This time the clinics were held at the Kimball School.

For the protection of the public water supply and the improvement of sanitation a number of direct-connected frost-proof water-closets in Concord dwelling units were condemned by the Sanitary Officer, being replaced in every instance by approved tank-connected water-closets. Owners of unconnected premises within 100 feet of the new sewer on South Street were ordered to connect to it within a time limit, except for a few cases in which the Board of Health after hearing made a temporary exception. A report on milk sanitation activities is separately submitted by the Milk Inspector; it should be mentioned here however that this is one of the most important divisions of the work of the Department of Health. In collaboration with an inspector from the State Department of Health the Milk Inspector also carried out an inspection of every public eating place in the city with especial reference to cleanliness and toilet facilities. The annual inspection of boarding homes for the welfare authorities was again carried out by the Sanitary Officer.

Respectfully submitted,

T. P. BURROUGHS, M.D., C.P.H.,

Sanitary Officer.

February 20, 1936.

REPORT OF THE PARK COMMISSIONERS

To the Mayor and Board of Aldermen:

The vandalism in the parks during the past year was unparalleled in the history of the parks. Considerable expense was incurred in replacing broken windows and drinking fountains.

At Rollins Park, through the CWA funds, the stone wall was carried along Broadway, the wading pool enlarged and many dead trees and old stumps were removed. The entrance to White Park at the corner of Center and High streets was remodelled.

The wading pools in Rollins and White parks were reconditioned and the requirement of the Board of Health complied with.

At East Concord, the dials of the clock in the Eastman Memorial were enclosed in glass, thus eliminating conditions that frequently led to stopping the clock.

The triangle formed by the junction of Hall and Water streets, enclosing the marker indicating it was the site of Rumford Garrison, No. 6, was enclosed by a hedge and seeded. A row of lilacs was placed at the rear for a background. This beautification was done by the Garden Club of the city, and was placed under the care of the park department.

While the wild Canadian geese and the ducks increased in numbers the swans all died from various causes.

The death of Benjamin C. White occurred on November 14, 1935. Mr. White was the only surviving member of the original Board of Park Commissioners appointed in January, 1885. White Park today is a living monument to the memory of the White family who presented the park to the city.

Charles L. Jackman resigned from the Commission, owing to his appointment on the Police Commission and Mrs. Robert J. Murchie was appointed to fill the vacancy.
